FRIDAY JULY 5, 1912.

There is no communion possible among men who believe only in hearsay. Only in a world of sincere men is unity possible, and there, in the long run, it is as good as certain.—Carlyle.

In the case of the yacht Nattose, it's considerably better late than never.

The report that the motto of the Progressives is "Thou Shalt Not Sneal" proves erroneous.

For plain and fancy Progressive trimmings, see A. L. C. Atkinson. He has brought a fine collection from Chicago.

Just enough rain on the Fourth to give the sugar men hope; to lay the dust; not enough to hurt new hats and white dresses.

Maui and Hawaii celebrated generously yesterday. Returning visitors from Wailuku say the program there was "all to the good".

Hawaii's delegation at Chicago is pictured in a Chicago Tribune cartoon as saying "I'm Afraid To Go Home Through California".

Many were the favorable comments on the Hawaiian organizations which marched in yesterday's parade. The procession gained distinctly by their participation.

Colonel Sam Parker is credited with having worn National Committeeman Holstein's badge into a number of committee meetings. No one can deny that the Colonel would lend a certain eclat to the committee.

The Department of Hawaii and Brigadier General Macomb, as well as the officers in direct charge of the military features of yesterday's program, are to be congratulated on the remarkable success of these features.

Champ Clark just naturally has to be a good scout and boost for Wilson now. Democracy couldn't very well reconcile a Speaker and an Administration out of sympathy, nor bank on the kind of record the party would make under such circumstances.

There seems to be some misunderstanding about Governor Osborn of Michigan. Osborn was one of the seven Governors who signed the famous "call to Roosevelt". He was hailed as a Progressive then. Now Osborn says he can't support Roosevelt's third party. And he is now hailed—by the Progressives—as a non-Progressive. Kind of hard for a man to know where he stands, isn't it?

ROOSEVELTISM AND HAWAII

Ex-Governor George R. Carter and A. L. C. Atkinson have returned from Chicago prepared to launch Roosevelt's "Progressive Party" in Hawaii. Any doubts as to this should be dispelled by a reading of Mr. Carter's signed statement made to the Star-Bulletin and published today.

They will mature their plans locally and the party will be launched if any assurance of support can be gained. To get that support they must tie up to local issues of some kind.

Kuhio is the man they have in mind to furnish the local issue, the support in this Territory, if signs are read aright. They cannot hope for support from the substantial and responsible interests whose continued prosperity depends on intelligent and scientific tariff revision. They cannot hope to win any considerable following merely on the recital of how the steam roller rolled at Chicago and rolled out some Roosevelt delegates flat in its path. They will have to angle for support with Roosevelt's catchwords for bait.

There's no particular need for Hawaii to get excited about this proposal for a "Progressive" party movement here. Those who come back from Chicago in a ferment of political heat and with the echoes of the Coliseum tumult still ringing in their ears may feel that several commandments have been shattered, but let it be remembered that four years ago, when Roosevelt was engineering the steam-roller for Taft, with Brother Hitchcock shoveling in the coal, there were other delegates flattened out by the national committee.

The "Progressive" brethren will have to point out some unmistakable, clear and definite way whereby Hawaii can better herself and protect her vital interests by listening to them before there is need of getting excited. Doubtless we shall hear some good oratory from Mr. Carter and Mr. Atkinson. Let's hear it, by all means.

A BEACH PATROL NEEDED.

Waikiki Beach is one of the safest bathing places—in natural conditions—of the world. It is practically free from a deadly undertow, there are comparatively few "holes" to be dreaded by the timid or unskilled bather, and the water is pleasantly warm that the danger of cramps is at a minimum.

The very safety of the conditions is responsible for the loss of more than one life on the beach. Yesterday a bather met a sudden attack, probably of heart failure, and his limp form floated for perhaps ten minutes on top of the water before he was noticed. And then it was too late.

Waikiki should have a beach patrol, either public or private. There should be a system of guarding the beach so that any accident to bathers would be instantly noticed. Three weeks ago a party of canoeists found a girl practically helpless on a surf-board, having succumbed to what is thought to have been an apopleptic attack, and she was rescued in the nick of time.

Honolulu may justly feel proud of Waikiki's attractiveness and natural safety. That is no reason for not providing every additional safeguard that care and intelligence suggest. A beach patrol would not be necessary all the time; perhaps not every day. But certainly on every holiday, when thousands go into the water, many of them unskilled swimmers or in no physical condition to meet the shock of battling with the waves, a patrol should be established.

Statements of eye-witnesses of yesterday's tragedy are to the effect that Meyer, the victim, was found floating face downward on top of the water. One witness told the Star-Bulletin last night that the body was afloat on top of the water for probably ten minutes before the bathers, who were all around, noticed anything wrong.

Can there be anything more pitifully conclusive in the way of argument for a patrol than that a strong young man should go to his death with holiday crowds all about him and none to see his helplessness?

A DAY TO REMEMBER.

July 4, 1912, sets a high standard in patriotic celebration for future years to emulate. In point of a program representative of all races, all elements and all sides of holiday-making; in point of great crowds attending all features of this program; in point of deep interest, yesterday was a really splendid display of American patriotism.

Honolulu today unites in giving sincere thanks and true appreciation to a hard-working and unselfish committee and to the hundreds who took part in the day's program. No community could produce such a program with less internal friction among those in charge, and the hearty cooperation that prompted many organizations to take part speaks louder than words as a practical interpretation of true Americanism in American Hawaii.

AN OPEN SECRET.

Many ask the reason for the continued and increasing demand for Chamberlain's Colic, Cholera and Diarrhoea Remedy. The secret is that it never fails to give relief. The middle-aged

Post—He thinks he's the whole thing, does he?

Barker—Well, I'd hardly go as far as that; but he certainly considers himself a quorum.

"Well, I see that that jackass, Elderberry, has gone and put his head in the noose again," said Hawkins.

"Worse than that," said Bantz. "He's got it in the noose papers."

That old financier's last words were characteristic of him.

"What were they?"

"He died at the age of 80 and said he hated to go at so far below par."

"That man has been making that same tariff speech for years, and I don't understand it yet."

"Certainly not," replied Senator Sorghum; "that speech is like a conundrum. After you guess it, it's no good any more."

Little Interviews

IRWIN H. BEADLE—That full-page ad. of the Trent Trust Co., advertising Manoa Valley property, in the first issue of the Star-Bulletin, brought results.

JAMES RATH—it doesn't do much good to preach temperance and religion to a man when hunger is gnawing at his stomach. Feed him first and preach afterwards.

WM. THOMAS—Advertising made a great difference in the marketing of the Hawaiian pineapple. I used to travel with salesmen in order to place our product. One wholesaler in Terre Haute, Ind., took fifty cases—then a big order—the first time I called on him. This year he ordered four carloads of our pack.

COMMITTEE WINS PRAISE FOR WORK

The fact that Honolulu had a celebration yesterday befitting the birthday of the nation is entirely due to the efforts of the get-together joint committee of the Chamber of Commerce and the Merchants' Association, and General Malcolm M. Macomb, U. S. A.

Despite numerous discouragements, the members of the committee went ahead with its plans, confident that in the end all real Americans would show their patriotism and public spirit in helping in the celebration of the day.

The program, which contained a number of unusual features, was carried out without a single hitch, and the performances were "as advertised."

The plans for the day were laid out by Marston Campbell, general chairman, with J. Walter Doyle, secretary and originator of several spectacles, as an efficient aide. The other members of the committee who assisted in making the affair a success were Frank C. Atherton, treasurer; Julius Unger, Charles F. Chillingworth, Ed Towse, W. D. Adams, Norman B. Courtenay, Homer Smith, Marnie Phillips and H. M. Hepburn.
